

Standard Features

- Legal for Trade measurement range for maximum freight size at 96 in x 96 in x 96 in and minimum freight size at 12 in x 12 in x 12 in with 0.5-inch accuracy
- 360-degree access for easy pallet placement in the center of target zone
- No moving parts and solid-state design
- Minimal set-up and training required
- Up to four low-resolution intensity images provide a bounding box to identify measurement recorded and can be configured to include time and date, scan ID, serial number, dimensions and dimensioning indications

Options

- Up to two high-resolution cameras enable freight identification, damage assessment and tracking
- LED lighting kit reflects a light grid on the floor, eliminating the need to paint, etch or tape the dimensioning zone
- 23-inch forklift operator display provides instantaneous feedback to the forklift or pallet jack operator, communicating dimensions and system status
- iDimension software suite provides a customizable GUI and triggering methods, storage, logging and transfer of shipment and dimensional data and ftp images to existing ERP, TMS and WMA without the use of the iDimension web service interface API
- iDimension software suite can be used to integrate the iDimension LTL with barcode scanners, floor scales and forklift scales

APPROVALS

Part Number

Part #	Description
194205	iDimension LTL System Single, Rugged Internal PC, 8 x 8 x 8ft x 0.5in

Options/Accessories

Part #	Description
System Options	
188755	iDim Camera Option Kit camera, cabling, and hardware
194206	iDimension LTL, Option Target Zone Amber LED Light Kit, Set of 4
193830	Kit,iDimension LTL 21.5" Smart Monitor & Mount Kit - Commercial
176019	Test Box,iDim 400 iDimension 400-20in x 20in test box with handles
174132	Power Cord, Pigtail 50ft, SVT, 18 gauge/3 conductor, CEE color code
Mounting Options	
194208	iDimension LTL, Option 80/20 S & G Ceiling Mount Kit, 25ft Ceiling Height Max
188446	IDim LTL Modular Install Kit, 80/20
188757	iDim Hanging Hardware Kit Hanger Assy, wires, and hardware
Optional Factory Service and Support	
171666	Field Install & Training Installation Assistance - iDimension Series ***** The following rates apply to on-site installation assistance and training services provided by Rice Lake Weighing Systems Representatives Monday thru Friday. Per Day Net Charge: \$1500 per work day (not to exceed 8 work hours). Additional daily hours prorated at \$200 per hour. TRAVEL EXPENSES BILLED SEPARATE AND AT COST Cost between Rice Lake, Wisconsin and the Job location, regardless of mode of transportation.
